Volume 26 Contents

January

Editorial 1
Announcements
Teaching Bioinformatics. H Salter 3
Mechanism of Action of Local Anaesthetics: a Practical Approach to Introducing the Principles of pKa to Medical Students. M. Lucia Bianconi 11
A Long, Long Time Ago in a Land Far Away...a Story About α-Ketoglutarate. D Bootland 14
Some Basic Concepts in Enzyme Purification: Northrup's Solubility Test for the Purity of Proteins Revisited. Srinivasan 16
Medical Students' and General Practitioners' Perception of Biochemistry in Relation to Medicine. O A Owolabi, K M Anig and N M Shuaibu 18
Playing with Cellular and Humoral Immunity. D Colombo, A Fritsch, K Gomes Ordovas, A Spode and M Lucia Scroferneker 20
How Does the Ratio of ATP Yield from the Complete Oxidation of Palmitic Acid to that of Glucose Compare with the Relative Energy Contents of Fat and Carbohydrate. I G Darvey 22
Is Free Ethanolamine Required as a Catalyst for the *de novo* Biosynthesis of Phosphatidylethanolamine and Ethanolamine in Mammals? I G Darvey 24
Internet Assisted Learning of Biochemistry in Japan. T Hamamoto and Y Kagawa 27
IUPAC–IUBMB Joint Commission on Biochemical Nomenclature (JCBN) and Nomenclature Committee of IUBMB (NC-IUBMB) 30
Features Section
Problem-based Learning. C A Smith 34
Modelling Molecular Structures. A Hinchliffe 35
Computer-aided Learning. G R Parslow 40
Oxygen Consumption by Isolated Mitochondria: Software for Planning and Interpreting Experiments. E Galembeck, R T Kubo, D V Macedo and B Torres 41
Miscellaneous Bytes. G R Parslow 44
Software Review. J Heritage 50
Biotechnology Education. R O Jenkins 51
The Role of Scientific Institutions in the Promotion of Biotechnology to the Public (School, the Mass-media, Entrepreneurs etc). A C Mannino, T Ruzzon, S Lercari and S Uccelli 52
A Novel Approach to Practical Enzymology Teaching: a Conductimetric Investigation of Arginase, Inorganic Pyrophosphatase, Aliphatic Esterase, Ornithine Carbamyl Transferase and Argino-succinate Lyase Activities from Mammalian Liver. A Lawrence, A Maclean, J Young and R Stevenson 56
Isolation of γ-Globulin (IgG) from Serum: a Task that Encourages Students to Consolidate Concepts on Protein Structure and Properties. A I Assis-Pandochi, A C Cspadaro and Y M Lucisano-Valim 63
A Practical Experiment on Cell Permeabilization and Biochemical Characterisation *in situ*. A Ponces Freire, A Martins and C Cordeiro 66
Urine Analyses to Assess the Nutritional Status of Deer in Winter. P Rioux, J-P Ouellet, A Dumont, P U Blier and M Crête 70
A Simple Experiment Demonstrating the Allosteric Regulation of Yeast Pyruvate Kinase. R L Taber, A Campbell and S Spencer 74
Biochemical Characterization of Transducin, the G-Protein of Bovine Retina. J P Muschietti, H E Martinetto and M M Flawi 78
Conference Report 83
Letters to the Editor 84
Video Reviews 86
Book Reviews 89

April

Editorial 101
Announcements 102
Computer Applications in the Biomolecular Sciences. Part 1: Molecular Modelling. C E Sansom and C A Smith 103
Teaching and Learning in Groups and Teams. R G Dennick and K Exley 111
Amino Acid Names and Parlor Games: from Trivial Names to a One-Letter Code, Amino Acid Names

Amino Acid Names and Parlor Games: from Trivial Names to a One-Letter Code, Amino Acid Names have Strained Students' Memories. Is a More Rational Nomenclature Possible? M Saffran 116
Exercise Biochemistry as an Approach to the Study of Intermediary Metabolism. H Filippusson 119
Correlation of Examination Performance with Lecture Attendance: a Comparative Study of First-Year Biological Sciences Undergraduates. D Gatherer and F C R Manning 121
The New Medical Curriculum in India. C V Anand, U Anand and R Agarwal 124
Teaching Gulf Medical Students about Chemical Solutions by Means of Problem-Solving Laboratory Practicals. M P T Gillett and R A Bayoumi 126
What do Graduate Destination Data Imply for the Teaching of Biochemistry? S Brown 130
Conference Reports 134

Features Section
Problem-based Learning. C A Smith 140
A First Period Exercise in Biochemistry: a Pre-Assessment Case Study. L Henderson 141
Computer-based Learning. G Parslow 143
Miscellaneous Bytes. G R Parslow and E J Wood 144
Biotechnology Education. R O Jenkins 149
Biotechnology Development in Hong Kong: Infrastructural Support for the Biotechnology and Related Industries. J C Tsang and Y L Lo 150
International Environmental Law and Biochemistry: an Innovative Teaching Opportunity. J Candlish 153

Experimental Section
A Simple Immunoassay-based System Capable of Detecting Antibody Raised Against Human IgG. G Walsh, B O'Shaughnessy, N Shanley and J J Tobin 157
An Experiment Illustrating Metabolic Regulation *in situ* Using Digitonin Permeabilized Yeast Cells. A Ponces Freire, A Margarida Martins, C Cordeiro 161
Photosynthesis and Respiration in Leaf Slices. S Brown 164
Preparation of Reagents for Blood Group Serology: Illustrating Basic Concepts of the Antibody Response. M Miguez, M Marco, S Cáceres and A Nieto 168
A Modification of the Hanging Drop Method of Protein Crystallisation Suitable for an Undergraduate Class Practical. D Sheehan, C O'Mahony and M Coll 173
A 96-well Plate Assay for the Study of Calmodulin-activated Ca^{2+}-pumping ATPase from Red-cell Membranes. A D Conigrave and M B Morris 176
Letters to the Editor 182
Software Reviews 184
Book Reviews 187

July

Editorial 197
Announcements 198
News Flash 198
The Concept of Science Among Children of Different Ages and Cultures. D Lannes, L Flavoni and L De Meis 199
The Transformation of Linear to Cyclic Monosaccharide Structures. R Bentley 205
Impressions on a Visit to Moscow, November 1997. P N Campbell 211

Features Section
Problem-based Learning. C A Smith 213
The Assessment of "Metabolism" Taught in an Integrated Systems-based Medical Curriculum. P McCrorie, M Carroll 214
Teaching Biochemistry in a "Guided Discovery Curriculum". S Surlekar 218
Computer-based Learning. G R Parslow 223
Miscellaneous Bytes. G R Parslow and E J Wood 224
Conference Report — Calcium and Cellular Metabolism: Transport and Regulation. J C Benech, J R Sotelo Silveira, R García Teijeiro, J M Verdes, A Calliari, A Kun, D Calliaeri, J R Sotelo 228
Biotechnology Education. R O Jenkins 229
Dialogue in Biotechnology. R O Jenkins 230

Experimental Section
A Simple Surface Tension Method for Demonstrating the Lβ–Lα Transition in Biological Membranes. M Gugliotti, M J Politi, H Chaimovich 233
The Competitive Inhibition of Yeast Alcohol Dehydrogenase by 2,2,2-Trifluoroethanol. R L Taber 239
Deterination of Caffeine Content in Coffee using Fourier Transform Infra-red Spectrospcopy in Combination with Attenuated Total Reflectance Technique: a Bioanalytical Chemistry Experiment for Biochemists. B R Singh, M A Wechter, Y Hu and C Lafontaine 243
Rapid Detection of Varicella-Zoster Viral Antibodies by Latex Agglutination Assay: a Practical Experience for Medical and Science Undergraduates. V T K Chow 248
Book Reviews 252
Software Reviews 260
Corrigenda 261

October

Editorial 265
Announcements 266
Corrigendum 266
Dehalogenases: environmental defence mechanism and model of enzyme evolution. J D Allpress, P C Gowland 267
Peptide nucleic acids: deoxyribonucleic acid mimics with a peptide backbone. R Bakhtiar 277
Laboratory practical work as a technological process. A Pich-Otero, S Molina-Ortiz, L Delaplace, O Castellani, D Hozbor, D Sorgentini, A Lodeiro 281
Teaching the origin of the first living systems. C J Michael Graz 286

Discussion
Comments on optimization of glycolysis. J Christoffersen, M R Christoffersen, A Hunding 290

Features Section
Problem-based learning. C A Smith 292
Learning by posing questions. B B Torres 294
Computer-based learning. G R Parslow 297
Miscellaneous Bytes. G R Parslow, E J Wood 298
Biotechnology education. R O Jenkins 299
Biotechnology development in Hong Kong: a renewed scientific interest in traditional Chinese medicine. J C Tsang, Y L Lo 301

An experiment illustrating the effect of immobilisation on enzyme properties. M D Busto 304
Experimental Section
Use of two lectins for characterisation of glycoconjugates from human, porcine and bovine sera. M Mario Sánchez, J A Cabezas 309
A simple laboratory experiment to demonstrate several characteristics of enzymic reactions. M C Isola, L Franzoni 313
Waxes: a forgotten topic in lipid teaching. E Domínguez, A Heredia 315
Clinical chemistry in the medical curriculum: from practical to research. F J M F Dor, M I Cleton, G de Jong, H G van Eijk 317
Fluorescence resonance energy transfer (FRET): theory and experiments. M-C Chirio-Lebrun, M Prats 320
Oxidative destabilization of lysozyme and the chaperone-like activity of a heat-shock protein: a student experiment. T Aerts, S Weckx, J Clauwaert 324
Letter to the Editor 328
Book Reviews 329
Annual Report of the IUBMB I
